

Works Notification

October 2016

Gold Coast Light Rail Stage 2

UPDATE: EARLY MORNING EQUIPMENT DELIVERY

We previously advised of two early morning deliveries in early October. The second piling machine scheduled on Monday 10 will now enter the project alignment from 2.00am on Monday 17 October, weather permitting. If the weather delays the delivery, the delivery will take place at a similar time during the week. The piling machine will be delivered on a truck and trailer that is approximately 27 metres in length. Due to the length of the truck and trailer and limited space within the project corridor, temporary lane closures are required. Both entry and exit onto the Smith Street Motorway needs to occur when traffic volumes are at their lowest.

Work will involve:

- Temporary lane closure of the eastbound lanes on Smith Street Motorway near Biggera Creek and Uplands Drive.
- Traffic control to direct motorists during the lane closure.
- Temporary removal of concrete barriers to increase the width to allow truck and trailer access.

- Delivery truck and trailer enters into site and unloads the piling machine.
- Delivery truck and trailer exit the project corridor onto the Smith Street Motorway.

What to expect

- Delivery of piling machine into the project corridor.
- Noise from the mobile crane moving the concrete barriers, chains hitting the metal trailer during unloading activities, the piling machine engine and squeaking tracks whilst moving the unit off the trailer.
- Traffic control vehicles operating at two locations to place signage and close lanes.

Every effort will be made to keep disruption to a minimum for residents and road users. We appreciate your patience during these important works and will continue to update you as work progresses.

Contact the project team

If you have any questions or would like to register for more information, please contact the CPB Contractors Project Team on **1800 425 799*** or email **gclrstage2@cpbcon.com.au**. Visit **www.gclrstage2.com.au** anytime for more information and updates.

** Free call within Australia. Call charges may apply from mobile or pay phones.*

Project information

Gold Coast Light Rail Stage 2 involves the design and construction of a new 7.3km route which runs from Helensvale heavy rail station adjacent to the Gold Coast Line, then adjacent to the Smith Street Motorway to connect with Stage 1 at the Gold Coast University Hospital light rail station.

GoldlinQ's construction contractor CPB Contractors commenced construction in July 2016 and are committed to completing the project in time for the Gold Coast 2018 Commonwealth Games.
